SPECIAL 1933 LIST

e Verryhill Aursery Co.

4 Miles Northeast of SPRINGFIELD, OHIO, on State Route 4

155 Acres of Choicest Nursery Stock Now Available to Every Home and Garden Within Reach of Springfield at

GREATLY REDUCED PRICES

Five Special Offers: I Six beautiful Evergreens, a very fine selection, 10 to 15 inches tall, worth \$1.80. ALL FOR \$1.00.

II Five assorted, popular Shrubs, 15 to 18 inches tall, worth \$1.25. ALL FOR 75 CENTS.

III Ten specially selected Perennials and Rock Plants, essential to every garden, worth \$2.00. ALL FOR \$1.25.

IV Three of the best budded 2-year Hybrid Tea or Climber Roses, worth \$2.25. ALL FOR \$1.35.

Any five or more plants of the same variety in this price list at 10% discount. Twenty-five or more Hedge Plants—Privets or Evergreens—at 15% discount.

Many Other Bargain Offers on Display All Through the Planting Season

- ¶ We deliver all our stock freshly dug, and you plant them the same day. So many people have wasted money, time and effort by ordering from a distance plants that have been stored all winter and are half dead when they arrive. Berryhill's plants are guaranteed to live!
- ¶ Welcome to our Display Grounds! Whether you want a 10-cent Rock Plant or a big \$75 specimen Koster's Blue Spruce; whether you require a few plants to make a small cottage a cosy, beautiful home, or a large arboretum to make more charming an extensive estate, we shall be happy to serve you.
- The figure following each variety indicates in feet its approximate height when mature. The each prices only are given except where noted. Substantial reductions in large quantity are made. If you have surplus ground, it is fascinating to "line out" newer varieties of plants, and see them grow in beauty and value.
- ¶ We honor Yellow Springs Exchange Scrip. Berryhill is a member of the Mid-west Exchange of Yellow Springs, Ohio, recently organized by Arthur E. Morgan, President of Antioch College.
- ¶ With the co-operation of the Bureau of Plant Industry, United States Department of Agriculture, and Ohio State University, Berryhill is constantly engaged in research work and experiments in the use of new plants, methods and machinery. Our nurseries and dairy employ 34 different electrical operations in the development of our products.
- ¶ Berryhill is a large, wholesale nursery. Drive out and see us. Lynn Guernsey Farms are adjoining, and we invite you to see their great herd of 160 beautiful Guernseys any afternoon at milking time!

A. G. Bookwalter,

President.

EVERGREEN TREES

A checkup of your grounds will be sure to disclose where the arisocratic beauty of evergreens will add distinction and character. Evergreens blend delightfully with the garden's gay colors in summer, and in the winter their foliage gives a feeling of warmth and coziness. (Ask for our illustrated booklet "How to Landscape Your Grounds With Evergreens.")

All our Evergreens have been twice or more transplanted, and are carefully flug with a ball of earth and burlaped. Our soil is unsurpassed for balling—Berryhill's well known life insurance—heavy, fertile clay loam, containing no sand or gravel.

ARBORVITAE (Thuja)

ARBORVITAE (Ihuja)	
American (occidentalis) 30 ft.	
Broad base pyramidal bronzy coloring.	
- Sheared makes excellent hedge.	F
